Counter Mount Glass Rack

← Standard height of posts is 42". Height of posts should place stemware rods at approximately 7 feet from the floor. Racks may also be ordered with a shelf and curb rods for storage.

Custom fabrication can be easily accommodated by special order. Specify the quantity of glasses desired and overall space available and let our design staff create a unique unit for you. Various length, depth, and height racks are available.

## FABRICATED BOOTH DIVIDERS AND PARTITIONS

Our stunning panels and posts provide a noise-reducing and decorative barrier between room areas or booths.
